Important Statements

- **Basic Plan**

Tax Implication on QDAP

Please note that the QDAP status of this product does not necessarily mean you are eligible for the tax deduction available for QDAP premiums paid. This product's QDAP status is based on the features of the product as well as certification by the Insurance Authority and not the facts of your own situation. You must also meet all the eligibility requirements set out under the Inland Revenue Ordinance and any guidance issued by the Inland Revenue Department of HKSAR before you can claim these tax deductions. In particular, there may not be tax deduction benefits for retired Policyowners who are not subject to salaries tax or tax under personal assessment.

Any general tax information provided is for your reference only, and you should not make any tax-related decisions based on such information alone. You should always consult with a professional tax advisor if you have any doubts. Please note that tax law, regulations or interpretations are subject to change and may affect related tax benefits including the eligibility criteria for tax deduction. Hong Kong Life does not take any responsibility to inform you about any changes in the laws and regulations or interpretations, and how they may affect you. Further information on tax concessions applicable to QDAP may be found in Insurance Authority's website at www.ia.org.hk.

Certification of QDAP by Insurance Authority

The Insurance Authority certification is not a recommendation or endorsement of the policy nor does it guarantee the commercial merits of the policy or its performance. It does not mean the policy is suitable for all Policyowners nor is it an endorsement of its suitability for any particular Policyowner or class of Policyowners. The policy has been certified by the Insurance Authority but such certification does not imply official recommendation. The Insurance Authority does not take any responsibility for the contents of the product leaflet of the policy, makes no representation as to its accuracy or completeness, expressly disclaims any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of the product brochure of the policy.

Cooling-off Period

If you are not satisfied with your Policy, you have a right to cancel it within the cooling-off period and obtain a refund of any premium(s) and levy(ies) paid (in the original payment currency) to Hong Kong Life without any interest. A written notice signed by you should be received directly by Hong Kong Life Insurance Limited at 15/F Cosco Tower, 183 Queen's Road Central, Hong Kong within the cooling-off period (that is, the period of 21 calendar days immediately following either the day of delivery of the Policy or the Cooling-off Notice to you or your nominated representative (whichever is the earlier)). After the expiration of the cooling-off period, if you cancel the Policy before the end of the term, the projected Total Surrender Value (if applicable) may be less than the Total Premiums Paid.

Risk

1. Exchange Rate Risk

You are subject to exchange rate risks for the Policy denominated in currencies other than the local currency. Exchange rates fluctuate from time to time. You may suffer a loss of your benefit values and the subsequent premium payments (if any) may be higher than your initial premium payment as a result of exchange rate fluctuations.

2. Liquidity Risk / Long Term Commitment

The Plan is designed to be held until the Maturity / Expiry Date. If you partially surrender (only applicable to Fixed Term Option) or terminate the Policy prior to the Maturity / Expiry Date, a loss of the premium paid may be resulted.

The premium of the Plan should be paid in full for the whole payment term. If you discontinue the payment, the Policy may lapse and a loss of the premium paid may be resulted.

3. Credit Risk of Issuer

The life insurance product is issued and underwritten by Hong Kong Life. The premium to be paid by you would become part of assets of Hong Kong Life and that you and your Policy are subject to the credit risk of Hong Kong Life. In the worst case, you may lose all the premium paid and benefit amount.

4. Market Risk

The amount of Non-guaranteed Monthly Annuity Payment and Terminal Dividend (if any) of the Plan depends principally on the factors including investment returns, claim payments, policy persistency rates, operation expenses and tax; while the annual interest accumulation rate principally depends on the factors including investment performance and market conditions. Hence the amount of Non-guaranteed Monthly Annuity Payment and Terminal Dividend (if any) and annual interest accumulation rate are not guaranteed and may be changed over time. The actual Non-guaranteed Monthly Annuity Payment and Terminal Dividend payable and annual interest accumulation rate may be higher or lower than the expected amount and value at the time when the Policy was issued.

5. Inflation Risk

When reviewing the values shown in the Insurance Proposal, please note that the cost of living in the future is likely to be higher than it is today due to inflation.

Important Policy Provisions

6. Suicide

If the Life Insured commits suicide, while sane or insane, within one (1) year from the Issue Date or date of any reinstatement, whichever is later, the liability of Hong Kong Life shall be limited to a refund of paid premiums to the Beneficiary without interest less any existing Indebtedness. In the case of reinstatement, such refund of premium shall be calculated from the date of reinstatement.

7. Incontestability

The validity of the Policy shall not be contestable except for (i) the non-payment of premiums, (ii) fraud or (iii) misstatement of age and/or sex as specified in the Misstatement of Age and/or Sex provisions, after it has been in force during the lifetime of the Life Insured for two (2) years from the Issue Date or date of any reinstatement, whichever is later. Premiums paid will not be refunded should the Policy be voided by Hong Kong Life.

8. Automatic Termination

The Plan shall terminate automatically:

- i. upon the death of the Life Insured; or
- ii. if and when the Plan matures or is fully surrendered; or
- iii. if and when a premium remains unpaid at the end of the Grace Period as specified in the General Provisions unless Automatic Premium Loan applies; or
- iv. if and when the Indebtedness of the Policy equals to or exceeds the Guaranteed Cash Value; or
- v. if and when the Guaranteed Cash Value less Indebtedness (if any) is less than the premium required to maintain the Policy up to the next premium due date as specified in the Automatic Premium Loan provisions.

Others

9. Insurance Costs

The Plan is an insurance plan with a savings element. Part of the premium pays for the insurance and related costs (if any).

10. Non-guaranteed Monthly Annuity Payment and Terminal Dividend

Hong Kong Life determines the amount of divisible surplus that will be distributed in the form of Non-guaranteed Monthly Annuity Payment and Terminal Dividend. Non-guaranteed Monthly Annuity Payment and Terminal Dividend will be determined and distributed according to the Policy's terms and conditions and in compliance with the relevant legislative and regulatory requirements as well as relevant actuarial standards, whereas Terminal Dividend is available for certain types of policies and payable at the termination of the policies.

The amount of divisible surplus depends principally on the factors including investment returns, claim payments, policy persistency rates, operation expenses and tax. Hence the amount of Non-guaranteed Monthly Annuity Payment and Terminal Dividend is not guaranteed and may be changed over time. The actual Non-guaranteed Monthly Annuity Payment and Terminal Dividend payable may be higher or lower than the expected amount at the time when the policies were issued.

11. Withdrawal of Cash Payments

The withdrawal of cash payments (including but not limited to guaranteed bonus (if any) (only applicable to Up To Age 100 Option) and monthly annuity payments (if any) etc.) will decrease the Total Surrender Value and Total Death Benefit of the Policy.

12. Partial Surrender (only applicable to Fixed Term Option)

In case of Partial Surrender, the Guaranteed Cash Value and Terminal Dividend of the Policy will be decreased accordingly. This will also decrease the Monthly Annuity Payment, Total Surrender Value and Total Death Benefit of the Policy.

13. Policy Loan

After the Plan has acquired a Guaranteed Cash Value and while the Policy is in force, the Policyowner may, upon the sole security and satisfactory assignment of the Policy to Hong Kong Life, apply for a Policy Loan from the Plan. Any loan on the Policy shall bear interest at a rate declared by Hong Kong Life from time to time. Interest on the loan shall accrue and compound daily from the date of loan. The Policy Loan Interest Rate is not guaranteed and will be changed from time to time. The loan and the interest accrued thereon shall constitute Indebtedness against the Policy. Interest shall be due on each Policy Anniversary subsequent to the date of loan. In the event that the Indebtedness of the Policy equals to or exceeds the Guaranteed Cash Value, the Policy will terminate. Any Policy Loan and accrued loan interest may reduce the Total Surrender Value and Total Death Benefit of the Policy.

Any application for Policy Loan is not allowed on or after the date of commencement of the Annuity Period.

14. Non-Protected Deposit

The Plan is not equivalent to, nor should it be treated as a substitute for, time deposit. The Plan is not a protected deposit and is not protected by the Deposit Protection Scheme in Hong Kong.

15. Dispute on Selling Process and Product

Chong Hing Bank Limited, CMB Wing Lung Bank Limited, OCBC Bank (Hong Kong) Limited and Shanghai Commercial Bank Limited (collectively "Appointed Licensed Insurance Agencies" and each individually "Appointed Licensed Insurance Agency") are the Appointed Licensed Insurance Agencies of Hong Kong Life, and the life insurance product is a product of Hong Kong Life but not the Appointed Licensed Insurance Agencies. In respect of an eligible dispute (as defined in the Terms of Reference for the Financial Dispute Resolution Centre in relation to the Financial Dispute Resolution Scheme) arising between the Appointed Licensed Insurance Agency and the customer out of the selling process or processing of the related transaction, Appointed Licensed Insurance Agency is required to enter into a Financial Dispute Resolution Scheme process with the customer; however any dispute over the contractual terms of the life insurance product should be resolved between Hong Kong Life and the customer directly.

Dividend Policy

Hong Kong Life offers a comprehensive range of life insurance products which provide both guaranteed and non-guaranteed benefits to the Policyowners depending on the specific features of different products.

The guaranteed benefits generally include the insurance coverage payable on death, maturity, or disablement as well as guaranteed cash value for loan or Policy cancellation. The non-guaranteed benefits are the dividends (including Non-guaranteed Monthly Annuity Payment, Annual Dividend and Terminal Dividend (if applicable)) and rate of interest (referred to as “interest accumulation rate”) on Non-guaranteed Monthly Annuity Payment, Annual Dividend and other cash payments (if applicable) left on deposit under a Policy. The rate of interest may vary at the discretion of Hong Kong Life. Past dividends record is not indicative of future performance.

The amount available for distribution as dividends to relevant classes of Policyowner is determined by the Appointed Actuary of Hong Kong Life in accordance with Hong Kong Life’s internal dividend management. The amount depends on both the emerging experience and the future best estimate assumption including investment returns, claim payments, policy persistency rates, operation expenses and tax. The Appointed Actuary will also report to the Board of Hong Kong Life on the Policy covering allocation of profits between shareholders and participating fund for approval, taking into account the principle of fair treatment of customers, and the equity between shareholders and Policyowners.

Dividends will be determined and distributed according to the Policy’s dividend provision and in compliance with the relevant legislative and regulatory requirements as well as relevant actuarial standards, whereas Terminal Dividend is available for certain types of Policies and payable upon termination of the Policies.

As stated, the amount of dividends will vary according to the emerging experience of the above factors and types of the products. Hong Kong Life applies a smoothing approach in relation to the distribution of the dividends. It will only be modified if the actual experience is significantly different from expected or if the future expectation is changed.

Policyowners may also choose to leave their Monthly Annuity Payment, Annual Dividend or other cash payments (if applicable) with Hong Kong Life to earn interest at a rate determined by Hong Kong Life based on its investment performance and market conditions. As a consequence, the interest accumulation rates are not guaranteed and may be adjusted from time to time.

Investment Policy

The underlying investment is a dedicated fund managed by Hong Kong Life according to the investment mandate of participating fund specified in Hong Kong Life's internal investment guidelines. The fund's investments are mainly government bonds or corporate bonds with high credit rating and equities.

Generally, the asset allocation strategy is that at least 60% of the fund's assets will be invested in bonds mainly issued in US and Hong Kong, 0% to 30% invested in Hong Kong equities, and 0% to 10% in cash, with relatively higher allocation in USD denominated assets. The target currency mix of the fund's investments will vary according to the currency mix of Hong Kong Life's liability. Allocation of different asset classes will be reviewed regularly with considerations of the market conditions, economic outlook and global insights in order to generate sustainable long term returns.
