In addition, Terminal Dividend (non-guaranteed)³ may be payable on or after the end of 4th Policy Year when the Policy is fully surrendered by the Policyowner, upon the death of the Life Insured (provided that there is no named and surviving Contingent Life Insured who will become the new Life Insured) or upon Policy Maturity, whichever is earlier.

When the Policy is partially surrendered by the Policyowner, Terminal Dividend (non-guaranteed)³ may be payable on or after the end of 4th Policy Year. Flexible Change of Life Insured² to Spread the Wealth across Generations

While the Plan is in force and the Life Insured is alive, the Policyowner may change the Life Insured for unlimited times starting from the 1st Policy Anniversary as follows². This not only enables sufficient time for wealth accumulation but also adds flexibility to your financial arrangement to spread the wealth across generations.

- **Change of one Life Insured²**

The Guaranteed Cash Value, plus Accumulated Dividends and Interest (non-guaranteed)^{3,5} (if any) will remain unchanged and continue to accumulate in the Policy till age 130 of the New Life Insured.

- **Change to two Life Insureds²**

The Principal Amount⁴ of the Policy will be converted into two new policies of the same Basic Plan in accordance to the portion as specified by the Policyowner. The Guaranteed Cash Value, plus Accumulated Dividends and Interest (non-guaranteed)^{3,5} (if any) will be proportionally converted into the two new policies in accordance to the same portion as specified and continue to accumulate in the Policy till age 130 of the New Life Insured.

To encourage you to outline your wealth succession planning, the Plan offers Wealth Succession Bonus⁶. You can enjoy the joy of passing on your wealth as the policy can be continued while the Policyowner can also be rewarded.

"First-in-market" is stated by comparing to the same type of life insurance products on the market as of June 2020 when Wealth Accelerator II Whole Life Protection Insurance Plan was first launched.

Contingent Life Insured⁷ and Contingent Policyowner⁸ Arrangement for Policy Continuum

During the lifetime of the Life Insured and while the Plan is in force, the Policyowner may designate a Contingent Life Insured⁷. In the event of the death of the Life Insured on or after the 1st Policy Anniversary, the Contingent Life Insured will become the new Life Insured. This sustains the Policy and avoids the possibility of Policy termination due to the unexpected death of the Life Insured.

Moreover, to safeguard the wealth management planning, during the lifetime of the Life Insured and while the Plan is in force, Policyowner may designate a Contingent Policyowner⁸ so that the ownership of the Policy will be transferred to the Contingent Policyowner in the event of death of the Policyowner.

Flexible Wealth Management to Plan for the Future

The Policyowner may make a one-off or regular withdrawal from the cash value of the Policy (including the Guaranteed Cash Value (if any), Accumulated Dividends and Interest (non-guaranteed)^{3,5}(if any) and Terminal Dividend (non-guaranteed)³(if any)) according to his/ her needs in order to fulfilling the dreams like children's education and fruitful retirement, etc. However, the future cash value of the Policy will be reduced accordingly.

After the Policy has acquired a Guaranteed Cash Value, the Policyowner can opt for Partial Surrender⁹ to withdraw the Guaranteed Cash Value and Terminal Dividend (non-guaranteed)³(if any) attributable to the reduced portion of Principal Amount⁴ of the Policy.

Life Protection for Peace of Mind

When the Life Insured dies, the Total Death Benefit will be paid to the Beneficiary (provided that there is no named and surviving Contingent Life Insured who will become the new Life Insured) as below:

Instead of receiving the Death Benefit in a lump sum payment, Policyowner can designate other settlement options including Installment Payments (Fixed Amount) or Installment Payments (Fixed Period) while the Plan is in force and the Life Insured is alive to settle the Death Benefit to the Beneficiary.

Complimentary Additional Protection for Extra Peace of Mind

- **Accidental Death Benefit¹¹**

The Plan provides complimentary Accidental Death Benefit¹¹ for the first 5 Policy Years. Regardless of the presence of named and surviving Contingent Life Insured, if the Life Insured dies because of accident, an extra benefit equals to 30% of the first year premium of the Plan will be paid to the Beneficiary.

- **Accidental Waiver of Premium¹²**

If the Life Insured becomes totally and permanently disabled due to accident and loses his/her working ability before the Life Insured's 60th birthday for 6 consecutive months or above, premiums payable of the Plan will be waived within the period of disability.

Important Statements

- **Basic Plan**

Risk

1. Exchange Rate Risk

You are subject to exchange rate risks for the Policy denominated in currencies other than the local currency. Exchange rates fluctuate from time to time. You may suffer a loss of your benefit values and the subsequent premium payments (if any) may be higher than your initial premium payment as a result of exchange rate fluctuations.

2. Liquidity Risk / Long Term Commitment

The Plan is designed to be held until the Maturity/ Expiry Date. If you partially surrender or terminate the Policy prior to the Maturity/ Expiry Date, a loss of the premium paid may be resulted.

The premium of the Plan should be paid in full for the whole payment term. If you discontinue the payment, the Policy may lapse and a loss of the premium paid may be resulted.

3. Credit Risk of Issuer

The life insurance product is issued and underwritten by Hong Kong Life. The premium to be paid by you would become part of the assets of Hong Kong Life and that you and your Policy are subject to the credit risk of Hong Kong Life. In the worst case, you may lose all the premium paid and benefit amount.

4. Market Risk

The amount of dividends (if any) of the Plan depends principally on the factors including investment returns, claim payments, policy persistency rates, operation expenses and tax; while the annual interest accumulation rate principally depends on the factors including investment performance and market conditions. Hence the amount of dividends (if any) and annual interest accumulation rate are not guaranteed and may be changed over time. The actual dividends payable and annual interest accumulation rate may be higher or lower than the expected amount and value at the time when the Policy was issued.

5. Inflation Risk

When reviewing the values shown in the Insurance Proposal, please note that the cost of living in the future is likely to be higher than it is today due to inflation.

Important Policy Provisions

6. Suicide

If the Initial Life Insured commits suicide, while sane or insane, within one (1) year from the Issue Date or date of any reinstatement, whichever is later, the liability of Hong Kong Life shall be limited to a refund of paid premiums to the Beneficiary without interest less any existing Indebtedness. In the case of reinstatement, such refund of premium shall be calculated from the date of reinstatement.

Upon the change of the Life Insured(s), if the New Life Insured(s) commit suicide, while sane or insane, within one (1) year from the date of endorsement (in the case of one (1) New Life Insured), Issue Date of the new policies (in the case of two (2) New Life Insureds) (where applicable) or date of any reinstatement, whichever is the latest, the liability of Hong Kong Life shall be limited to (i) (a) a refund of the Total Premiums Paid for the Plan (without interest) or (i)(b) the Guaranteed Cash Value, whichever is greater, plus (ii) Accumulated Dividends and Interest (if any) and (iii) Terminal Dividend (if any), less (iv) Indebtedness (if any).

7. Incontestability

The validity of the Policy shall not be contestable except for (i) the non-payment of premiums, (ii) fraud or (iii) misstatement of age and/or sex as specified in the Misstatement of Age and/or Sex provisions, after it has been in force during the lifetime of the Initial Life Insured for two (2) years from the Issue Date or the date of any reinstatement, whichever is later. Premiums paid will not be refunded should the Policy be voided by Hong Kong Life.

Upon the change of the Life Insured(s), Hong Kong Life shall not contest the validity of the Policy after the change has been in force during the lifetime of the New Life Insured(s) for two (2) years from the date of endorsement (in the case of one (1) New Life Insured), Issue Date of the new policies (in the case of two (2) New Life Insureds) (where applicable) or date of any reinstatement, whichever is the latest, except for (i) the non-payment of premiums, (ii) fraud or (iii) misstatement of Age and/or sex as specified in the Misstatement of Age and/or Sex provisions. Premiums paid will not be refunded should the Policy be voided by Hong Kong Life.

8. Automatic Termination

The Plan shall terminate automatically:

- i. upon the death of the Life Insured (provided that there is no named and surviving Contingent Life Insured who will become the new Life Insured pursuant to the "Designation of Contingent Life Insured" provisions of the General Provisions of the Policy); or
- ii. if and when the Plan matures or is fully surrendered; or
- iii. if and when a premium remains unpaid at the end of the Grace Period as specified in the General Provisions of the Policy unless Automatic Premium Loan applies; or
- iv. if and when the Indebtedness of the Policy equals to or exceeds the Guaranteed Cash Value; or
- v. if and when the Guaranteed Cash Value less Indebtedness (if any) is less than the premium required to maintain the Policy up to the next premium due date as specified in the Automatic Premium Loan provisions; or
- vi. if and when the Policy is converted into two (2) new policies for New Life Insured upon the change of Life Insured as specified in the Change of Life Insured Option provisions.

Others

9. Insurance Costs

The Plan is an insurance plan with a savings element. Part of the premium pays for the insurance and related costs (if any).

10. Cooling-off Period

If you are not satisfied with your Policy, you have a right to cancel it within the cooling-off period and obtain a refund of any premium(s) and levy(ies) paid (in the original payment currency) to Hong Kong Life without any interest. A written notice signed by you should be received directly by Hong Kong Life Insurance Limited at 15/F Cosco Tower, 183 Queen's Road Central, Hong Kong within the cooling-off period (that is, the period of 21 calendar days immediately following either the day of delivery of the Policy or the Cooling-off Notice to you or your nominated representative (whichever is the earlier)). After the expiration of the cooling-off period, if you cancel the Policy before the end of the term, the projected Total Surrender Value (if applicable) may be less than the Total Premiums Paid.

11. Dividends

Hong Kong Life determines the amount of divisible surplus that will be distributed in the form of dividends. Dividends will be determined and distributed according to the Policy's terms and conditions and in compliance with the relevant legislative and regulatory requirements as well as relevant actuarial standards, whereas Terminal Dividend is available for certain types of policies and payable at the termination of the policies.

The amount of divisible surplus depends principally on the factors including investment returns, claim payments, policy persistency rates, operation expenses and tax. Hence the amount of dividends is not guaranteed and may be changed over time. The actual dividends payable may be higher or lower than the expected amount at the time when the policies were issued. The withdrawal of dividends will decrease the Total Surrender Value and Total Death Benefit of the Policy.

12. Policy Loan

After the Plan has acquired a Guaranteed Cash Value and while the Policy is in force, the Policyowner may, upon the sole security and satisfactory assignment of the Policy to Hong Kong Life, apply for a Policy Loan from the Plan. Any loan on the Policy shall bear interest at a rate declared by Hong Kong Life from time to time. Interest on the loan shall accrue and compound daily from the date of loan. The Policy Loan Interest Rate is not guaranteed and will be changed from time to time. The loan and the interest accrued thereon shall constitute Indebtedness against the Policy. Interest shall be due on each Policy Anniversary subsequent to the date of loan. In the event that the Indebtedness of the Policy equals to or exceeds the Guaranteed Cash Value, the Policy will terminate. Any Policy Loan and accrued loan interest may reduce the Total Surrender Value and Total Death Benefit of the Policy.

13. Non-Protected Deposit

The Plan is not equivalent to, nor should it be treated as a substitute for, time deposit. The Plan is not a protected deposit and is not protected by the Deposit Protection Scheme in Hong Kong.

14. Dispute on Selling Process and Product

Chong Hing Bank Limited, CMB Wing Lung Bank Limited, OCBC Bank (Hong Kong) Limited and Shanghai Commercial Bank Limited (collectively "Appointed Licensed Insurance Agencies" and each individually "Appointed Licensed Insurance Agency") are the Appointed Licensed Insurance Agencies of Hong Kong Life, and the life insurance product is a product of Hong Kong Life but not the Appointed Licensed Insurance Agencies. In respect of an eligible dispute (as defined in the Terms of Reference for the Financial Dispute Resolution Centre in relation to the Financial Dispute Resolution Scheme) arising between the Appointed Licensed Insurance Agency and the customer out of the selling process or processing of the related transaction, Appointed Licensed Insurance Agency is required to enter into a Financial Dispute Resolution Scheme process with the customer; however any dispute over the contractual terms of the life insurance product should be resolved between Hong Kong Life and the customer directly.

Dividend Policy

Hong Kong Life offers a comprehensive range of life insurance products which provide both guaranteed and non-guaranteed benefits to the Policyowners depending on the specific features of different products.

The guaranteed benefits generally include the insurance coverage payable on death, maturity, or disablement as well as guaranteed cash value for loan or Policy cancellation. The non-guaranteed benefits are the dividends (including Annual Dividend and Terminal Dividend) and rate of interest (referred to as "interest accumulation rate") on Annual Dividend and other cash payments left on deposit under a Policy. The rate of interest may vary at the discretion of Hong Kong Life. Past dividends record is not indicative of future performance.

The amount available for distribution as dividends to relevant classes of Policyowner is determined by the Appointed Actuary of Hong Kong Life in accordance with Hong Kong Life's internal dividend management. The amount depends on both the emerging experience and the future best estimate assumption including investment returns, claim payments, policy persistency rates, operation expenses and tax. The Appointed Actuary will also report to the Board of Hong Kong Life on the Policy covering allocation of profits between shareholders and participating fund for approval, taking into account the principle of fair treatment of customers, and the equity between shareholders and Policyowners.

Dividends will be determined and distributed according to the Policy's dividend provision and in compliance with the relevant legislative and regulatory requirements as well as relevant actuarial standards, whereas Terminal Dividend is available for certain types of Policies and payable upon termination of the Policies.

As stated, the amount of dividends will vary according to the emerging experience of the above factors and types of the products. Hong Kong Life applies a smoothing approach in relation to the distribution of the dividends. It will only be modified if the actual experience is significantly different from expected or if the future expectation is changed.

Policyowners may also choose to leave their Annual Dividend or other cash payments with Hong Kong Life to earn interest at a rate determined by Hong Kong Life based on its investment performance and market conditions. As a consequence, the interest accumulation rates are not guaranteed and may be adjusted from time to time.

Investment Policy

The underlying investment is a dedicated fund managed by Hong Kong Life according to the investment mandate of participating fund specified in Hong Kong Life's internal investment guidelines. The fund's investments are mainly government bonds or corporate bonds with high credit rating and equities.

Generally, the asset allocation strategy is that at least 40% of the fund's assets will be invested in bonds mainly issued in US and Hong Kong, 0% to 60% invested in Hong Kong equities, and 0% to 10% in cash, with relatively higher allocation in USD denominated assets. The target currency mix of the fund's investments will vary according to the currency mix of Hong Kong Life's liability. Allocation of different asset classes will be reviewed regularly with considerations of the market conditions, economic outlook and global insights in order to generate sustainable long term returns.
